

**IN THE DISTRICT COURT OF DOUGLAS COUNTY, NEBRASKA**

CHRIS CONRAD and SALLY CONRAD,
HUSBAND AND WIFE, and TAYLOR
BISHOP,

Case No. CI 21-

COMPLAINT

Plaintiffs,

vs.

AMNEAL PHARMACEUTICALS, INC.,

Defendant.

COMES NOW, Plaintiffs and for their cause of action against Defendant allege and state as follows:

1. Plaintiffs Chris and Sally Conrad (the "Conrads") are residents of Sarpy County, Nebraska.
2. Plaintiff Taylor Bishop ("Bishop") is a resident of Douglas County, Nebraska.
3. Defendant, Amneal Pharmaceuticals, Inc. ("Amneal"), is a Delaware corporation with its principal place of business at 400 Crossing Blvd., Bridgewater, NJ 08807. At all times material to this case, Amneal has been engaged in the manufacturing, sale, and distribution of Metformin HCl ER, USP in the United states and distribution and sale in Nebraska.
4. Venue is proper.
5. The Court has jurisdiction as to all events material hereto.
6. Metformin is an oral medication that is used in the treatment of type-2 diabetes. It is one of the topmost prescribed medications in the United States.

7. On or about November 2018 Bishop was diagnosed with Polycystic ovary syndrome ("PCOS") by Peggy an APRN with LifeCare Family Medicine in Bellevue, Nebraska. She was prescribed Metformin Extended Release on this date to treat the symptoms of her PCOS.

8. Bishop had her thyroid levels checked prior to starting Metformin as a routine test at her doctor visit, at which time they were normal and not above/below average.

9. Bishop was diagnosed with Thyroid Cancer in July of 2019, when she discontinued use of Metformin.

10. There are 11 manufacturers and 6 name brands of Metformin on the market.

11. As of July 13, 2020, several batches of metformin made by different drug manufacturers tested positive for a potential carcinogen. This carcinogen was known to cause thyroid cancer.

12. Because of this carcinogen the FDA requested that Metformin be taken off the market by the manufacturers.

13. As of October 5, 2020, the FDA reported that Amneal Pharmaceuticals recalled their Metformin prescriptions whether expired or not.

14. At the time of her diagnosis in July of 2019, Amneal Pharmaceuticals knew, or should have known, about the carcinogen in Metformin.

15. Amneal is required to complete testing on their medications routinely to make sure that there are no possibly harmful effects or ingredients in them.

16. Amneal has been the subject of multiple FDA investigations into their manufacturing practices and history of ongoing violations with their medications.

17. In one of the most recent inspections done by the FDA of Amneal they were cited for not reviewing the testing data obtained on their manufactured medications.

18. Amneal's Metformin is accompanied by an FDA approved label which gives the consumer the false idea that it is safe and approved by the FDA and that the testing done meets the standards set by the FDA, are safe for consumption, and are without the harmful carcinogens present in the Metformin.

19. Bishop's thyroid levels were normal prior to taking the Metformin manufactured by Amneal. There is no history of thyroid cancer in the family and no other indications of the cause of her diagnosis other than the Metformin carcinogen.

20. Bishop had to undergo surgery and treatment in the amount of \$60,000.00 for the thyroid cancer and will continue to undergo treatment in the amount of \$600.00 per year for the rest of her life.

21. Bishop will suffer not having a thyroid for the rest of life and need to take medication to regulate her body's metabolic rate that controls her heart, muscle and digestive functions. Bishop is also now more susceptible to a secondary cancer.

22. Amneal would have known of the carcinogen in their Metformin if they had followed the testing regulations set by the FDA and reviewed the raw data as required. As such they allowed a harmful product to be put on the market for consumers, under the guise that it was safe and approved by the FDA.

23. Bishop would not have agreed to take, and her doctor would not have prescribed her a medication, that they knew was not properly tested under the FDA

standards. Amneal falsely labeled their Metformin to mislead Bishop to take the prescription which led to her thyroid cancer and injuries.

WHEREFORE, Plaintiffs pray the Court enter an order against Defendant for strict liability for an award of \$2,000,000.00 for past and future medical expenses. Further, Plaintiffs pray for judgment in their favor and against the Defendant for attorney fees and other and further relief as the Court finds just and equitable.

DATED this 29 day of October, 2021.

CHRIS CONRAD and SALLY
CONRAD, and TAYLOR BISHOP,
Plaintiffs,
